

Environmental Policy

Forsyth of Denny Ltd and Dan McNally Ltd are leading providers of Managed Lifting Solutions, Wind Turbine Major Component Exchange, Wind Turbine Installation and Pre-assembly, Wind Turbine Decommissioning, Wind Turbine Services, Mobile crane hire, general and specialist transport, machinery movement and tower crane services and is committed to providing services that meet and where possible, exceed our business objectives and customer requirements.

The management recognises that operations can impact both directly/indirectly on the environment. We are committed to protecting & improving the environment through the prevention of pollution, managing waste and by adopting best practice where possible. We will aim to integrate environmental considerations in business decisions and adopt greener alternatives where possible. In order to discharge our responsibilities, the management will:

- bring this Environmental Policy Statement to the attention of all stakeholders
- continually improve the environmental management system through regular audits of the system and comply fully with all relevant legal/compliance obligations, COP and regulations.
- eliminate risks to the environment, where possible, through selection and design of materials, buildings, facilities, equipment and processes
- ensure that emergency procedures are in place at all locations for dealing with environmental issues
- provide the framework for establishing objectives and targets on an annual basis to ensure the continuous improvement of our environmental performance
- identify and manage environmental risks and hazards
- involve customers, partners, clients, suppliers and subcontractors in the implementation of our objectives
- minimise waste and increase recycling within the framework of our waste management procedures and improve the environmental efficiency of our transport and travel
- protect the environment through the prevention of pollution to land, air and water
- promote environmentally responsible purchasing and provide adequate resources to control environmental risks arising from our work activities
- provide suitable training to enable employees to deal with their specific areas of environmental control
- reduce the use of water, energy and any other natural resources
- source materials from sustainable supply, when practicable and only engage appropriate contractors.

This Environmental Policy will be reviewed at least annually and revised as necessary to reflect changes to the business activities or legislative change. Any changes will be brought to the attention of all stakeholders
